

SCRUM LEADERSHIP SERIES

Scaling Scrum with Scrum

For organizations that need to respond to demand at the scale the work requires, without installing a second system. Shared language first. Then people who can see the forces, make a bounded structural or governance move, and watch whether the work responds.

Who this is for

Leaders accountable for whether the business can actually execute. Teams that will take the course together so the working boundary is shared. Not individuals collecting the next badge.

An individual can take the same course when the public path opens. That path is secondary on this sheet. Private live is the offer now.

What SSWS helps a team do

The course gives the organization a practical account of scaling as a series of moves forced by demand and changing conditions. Structure and governance change. Scrum stays Scrum. It is reused as teams-of-teams. Pre-SSWS is required and sits for days before the course.

A course is not capability

Foundational knowledge can begin outside the domain. Professional capability cannot be established outside it.

Scaling Scrum with Scrum can give concepts, distinctions, and demonstrated understanding of the official objectives. Capability develops when that thinking is used in this company's work, a bounded change is made, and the work answers back. Domain Guides is the program option if the skill must live here after the course.

How 3Back approaches learning: 3back.com/papers/how-3back-approaches-learning

Course outcomes

- Shared language for scaling without replacing Scrum
- A way to see the five problems that show up when demand outgrows one team
- A way to treat AI in the work as a participant, not a second system
- Demonstrated understanding of the official SSWS learning objectives
- A foundation that can enter Domain Guides. Not a substitute for it.

What participants receive

- Pre-SSWS, then ten course modules with official objective-based checks
- Private live instruction. Applied. Your structure, your demand.
- Public self-paced enrollment coming soon. Pre-SSWS still comes first.
- SSWS, recognized by the Scrum Guide Organization

At a Glance

Audience	Team or organization first
Formats	Private live now. Public coming soon.
Private	Onsite or virtual. Applied tabletop.
Gate	Pre-SSWS required. Days before the course.
Modules	Pre-SSWS + 10
Credential	SSWS

What they hold. What they earn.

SSWS designation

Recognition based on demonstrated understanding, not attendance alone.

Completing SSWS does not say the organization can now scale. That evidence is in the work.

PRE-SSWS + TEN MODULES

What the course covers

Pre-SSwS restates the scaling objectives already present in the Scrum Leadership Series and must sit for days before the course. The ten modules are the Scaling Scrum with Scrum course. People study the objectives, apply them to their own work, and check understanding. Expert guidance on the live path is applied tabletop instruction in their structure.

Official learning objectives: 3back.com/training/scaling-scrum-with-scrum/learning-objectives

Modules

Pre-SSwS and 01-03

- Pre-SSwS
- The claim
- Context-driven moves
- Five problems

04-06

- Teams of teams
- Leadership and flow
- Communication across teams

07-08

- Governance
- Reviews and planning at scale

09-10

- Transformation
- In this organization

Your goals for this delivery

What must this course help your team do differently? Write three outcomes to bring into the conversation.

Goal 1

Goal 2

Goal 3

PROGRAM OPTION

Domain Guides

Domain Guides are your people, inside your company. They know this operating environment. They learn to make bounded changes and see whether the work responds. If the skill must live here after Scaling Scrum with Scrum, that is the program.

3back.com/domain-guides

Request a private course

Same course. Team onsite or virtual. Applied.

3back.com/training/scaling-scrum-with-scrum

Self-paced course

Individual path. Enrollment coming soon.

Pre-SSwS still required.
