

SCRUM LEADERSHIP SERIES

Scrum Mastering II: Building Great Teams

For organizations that need a Scrum Master who can help a working group become a Great Team. Shared language first. Then people who can see the work, make a bounded change, and watch whether it responds.

Who this is for

Leaders accountable for whether the business can actually execute. Teams that will take the course together so the working boundary is shared. Not individuals collecting the next badge.

An individual can take the same course self-paced. That path is secondary on this sheet.

What SM2 helps a team do

The course gives the team a practical account of Scrum Mastering as the team tries to become a Real Team: how working agreements actually govern work, how conflict is handled, and how facilitation and coaching stay accountable for improvement. Build a Great Team.

Foundation is not capability

Foundational knowledge can begin outside the domain. Professional capability cannot be established outside it. SM2 can give concepts, distinctions, and demonstrated understanding of the official objectives. Capability develops when that thinking is used in this company's work, a bounded change is made, and the work answers back. Domain Guides is the program option if the skill must live here after the course.

Course outcomes

- Shared language for Scrum Mastering across the people who have to use it
- A path from Working Group toward Real Team, without pretending the events are the job
- Demonstrated understanding of the official SM2 learning objectives
- A foundation that can enter Domain Guides. Not a substitute for it.

What participants receive

- Twelve modules with official objective-based checks
- Expert guidance: agent tutor or live instruction
- A printed copy of Scrum Mastering II: Building Great Teams
- Twelve months to complete the self-paced path
- RSM2, recognized by the Scrum Guide Organization

TWELVE MODULES

What the course covers

Each module follows the corresponding chapter of the guidebook. People study the objectives, apply them to their own work, and check understanding before the next module unlocks. Expert guidance is either the agent tutor or live instruction.

The work includes the J-Model, Working Agreements, the Groan Zone, coaching stances, Story Mapping and vertical splitting, Definition of Done, root-cause work on impediments, and scaling as a response to demand.

PROGRAM OPTION

Domain Guides

Domain Guides are your people, inside your company. They know this operating environment. They learn to make bounded changes and see whether the work responds. If the skill must live here after SM2, that is the program.
