

SCRUM LEADERSHIP SERIES

Product Ownership II: Making Hard Decisions

For organizations that need named owners who can choose value under uncertainty and stay accountable for the call. Shared language first. Then people who can see the work, make a bounded change, and watch whether it responds.

Who this is for

Leaders accountable for whether the business can actually execute. Teams that will take the course together so the working boundary is shared. Not individuals collecting the next badge.

An individual can take the same course self-paced. That path is secondary on this sheet.

What PO2 helps a team do

The course gives the team a practical account of Product Ownership beyond one Team Captain: Product Champion, Business Owner, and Team Captain as distinct facets; how value is chosen when the plan fails; and how someone stays accountable for the decision. Making Hard Decisions.

Foundation is not capability

Foundational knowledge can begin outside the domain. Professional capability cannot be established outside it. PO2 can give concepts, distinctions, and demonstrated understanding of the official objectives. Capability develops when that thinking is used in this company's work, a bounded change is made, and the work answers back. Domain Guides is the program option if the skill must live here after the course.

Course outcomes

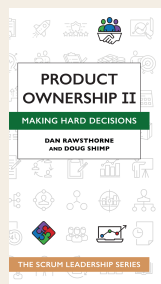

- Shared language for Product Ownership facets across the people who have to use it
- Hard decisions stay named: Champion, Business Owner, and Team Captain are not the same job
- Demonstrated understanding of the official PO2 learning objectives
- A foundation that can enter Domain Guides. Not a substitute for it.

What participants receive

- Twelve modules with official objective-based checks
- Expert guidance: agent tutor or live instruction
- A printed copy of Product Ownership II: Making Hard Decisions
- Twelve months to complete the self-paced path
- RPO2, recognized by the Scrum Guide Organization

TWELVE MODULES

What the course covers

Each module follows the corresponding chapter of the guidebook. People study the objectives, apply them to their own work, and check understanding before the next module unlocks. Expert guidance is either the agent tutor or live instruction.

The work includes Product Champion, Business Owner, and Team Captain as facets of Product Ownership, hard decisions in Complex and Chaotic space, Technical Debt as a Product Ownership decision, and turning an Idea into Strategy and Product.

Official learning objectives: 3back.com/training/product-ownership-2/learning-objectives

PROGRAM OPTION

Domain Guides

Domain Guides are your people, inside your company. They know this operating environment. They learn to make bounded changes and see whether the work responds. If the skill must live here after PO2, that is the program.
