

SCRUM LEADERSHIP SERIES

Product Ownership III: Leading Agile Organizations

For organizations that need Product Ownership to hold across more than one team: several backlogs, several facets, and decisions that shape the organization.

Shared language first. Then people who can see the work, make a bounded change, and watch whether it responds.

Who this is for

Leaders accountable for whether the business can actually execute. Teams that will take the course together so the working boundary is shared. Not individuals collecting the next badge.

An individual can take the same course self-paced. That path is secondary on this sheet.

What PO3 helps a team do

The course gives the team a practical account of Product Ownership at organizational scale: Champion, Business Owner, and Team Captain as facets that have to be instantiated as the organization grows; several backlogs instead of one list; and how an idea becomes strategy and product when demand forces scale. Leading Agile Organizations.

Foundation is not capability

Foundational knowledge can begin outside the domain. Professional capability cannot be established outside it. PO3 can give concepts, distinctions, and demonstrated understanding of the official objectives. Capability develops when that thinking is used in this company's work, a bounded change is made, and the work answers back. Domain Guides is the program option if the skill must live here after the course.

Course outcomes

- Shared language for Product Ownership facets across the people who have to use it
- Organizational ownership stays named: several backlogs, not one overloaded list
- Demonstrated understanding of the official PO3 learning objectives
- A foundation that can enter Domain Guides. Not a substitute for it.

What participants receive

- Thirteen modules with official objective-based checks
- Expert guidance: agent tutor or live instruction
- A printed copy of Product Ownership III: Leading Agile Organizations
- Twelve months to complete the self-paced path
- RPO3, recognized by the Scrum Guide Organization

THIRTEEN MODULES

What the course covers

Each module follows the corresponding chapter of the guidebook. People study the objectives, apply them to their own work, and check understanding before the next module unlocks. Expert guidance is either the agent tutor or live instruction.

The work includes Product Ownership as everything between Stakeholders and Developers, several backlogs at organizational scale, Idea through Strategy into Product, scaling as a response to demand, and leadership that stays accountable.

PROGRAM OPTION

Domain Guides

Domain Guides are your people, inside your company. They know this operating environment. They learn to make bounded changes and see whether the work responds. If the skill must live here after PO3, that is the program.
