

SCRUM LEADERSHIP SERIES

Scrum Mastering I: Facilitating Improvement

For organizations that need tighter boundaries on how teams act and conduct the work. Shared language first. Then people who can see the work, make a bounded change, and watch whether it responds.

Who this is for

Leaders accountable for whether the business can actually execute. Teams that will take the course together so the working boundary is shared. Not individuals collecting the next badge.

An individual can take the same course self-paced. That path is secondary on this sheet.

What SM1 helps a team do

The course gives the team a practical account of the Scrum Master work from inside the Team: how authority works, how decisions get made, how impediments get confronted, how accountability is protected, and how improvement is facilitated. It goes well beyond classic Scrum Guide material.

Foundation is not capability

Foundational knowledge can begin outside the domain. Professional capability cannot be established outside it.

SM1 can give concepts, distinctions, and demonstrated understanding of the official objectives. Capability develops when that thinking is used in this company's work, a bounded change is made, and the work answers back. Domain Guides is the program option if the skill must live here after the course.

Course outcomes

- Shared language for the Scrum Master work across the people who have to use it
- A clearer working boundary: decisions, impediments, and accountability without theater
- Demonstrated understanding of the official SM1 learning objectives
- A foundation that can enter Domain Guides. Not a substitute for it.

What participants receive

- Fifteen modules with official objective-based checks
- Expert guidance: agent tutor or live instruction
- A printed copy of Scrum Mastering I: Facilitating Improvement
- Twelve months to complete the self-paced path
- RSM1, recognized by the Scrum Guide Organization

FIFTEEN MODULES

What the course covers

Each module follows the corresponding chapter of the guidebook. People study the objectives, apply them to their own work, and check understanding before the next module unlocks. Expert guidance is either the agent tutor or live instruction.

The work includes the Team Swarm, seven Team Values, Agreement-Based Planning, the Team Captain, Abnormal Termination, Technical Debt, and the distinction between Acceptance Criteria and Standard of Care.

PROGRAM OPTION

Domain Guides

Domain Guides are your people, inside your company. They know this operating environment. They learn to make bounded changes and see whether the work responds. If the skill must live here after SM1, that is the program.
