

SCRUM LEADERSHIP SERIES

Product Ownership I: Leading a Team

For organizations that need one person accountable for what the Team builds next. Shared language first. Then people who can see the work, make a bounded change, and watch whether it responds.

Who this is for

Leaders accountable for whether the business can actually execute. Teams that will take the course together so the working boundary is shared. Not individuals collecting the next badge.

An individual can take the same course self-paced. That path is secondary on this sheet.

What PO1 helps a team do

The course gives the team a practical account of the Product Owner work from inside the Team: how priority is set, how value is chosen under constraint, how one person orders the work, and how ownership stays unshared. Lead a Team. One owner. One backlog.

Foundation is not capability

Foundational knowledge can begin outside the domain. Professional capability cannot be established outside it. PO1 can give concepts, distinctions, and demonstrated understanding of the official objectives. Capability develops when that thinking is used in this company's work, a bounded change is made, and the work answers back. Domain Guides is the program option if the skill must live here after the course.

How 3Back approaches learning: 3back.com/papers/how-3back-approaches-learning

Course outcomes

- Shared language for the Product Owner work across the people who have to use it
- One owner and one backlog: priority stays with the Team Product Owner
- Demonstrated understanding of the official PO1 learning objectives
- A foundation that can enter Domain Guides. Not a substitute for it.

What participants receive

- Seventeen modules with official objective-based checks
- Expert guidance: agent tutor or live instruction
- A printed copy of Product Ownership I: Leading a Team
- Twelve months to complete the self-paced path
- RPO1, recognized by the Scrum Guide Organization

At a Glance

Audience	Team or organization first
Formats	Private live or self-paced
Private	Onsite or virtual
Modules	17
Advance	80% to unlock the next module
Access	12 months on the self-paced path
Credential	RPO1

What they hold. What they earn.

Printed guidebook

Product Ownership I: Leading a Team. Dan Rawsthorne and Doug Shimp.

RPO1 credential

Recognition based on demonstrated understanding, not attendance alone.

SEVENTEEN MODULES

What the course covers

Each module follows the corresponding chapter of the guidebook. People study the objectives, apply them to their own work, and check understanding before the next module unlocks. Expert guidance is either the agent tutor or live instruction.

The work includes unshared Product Owner accountability, one ordered backlog, Capabilities and Chores, Agreement-Based Planning, the Team Captain, and the distinction between Acceptance Criteria and Standard of Care.

Official learning objectives: 3back.com/training/product-ownership-1/learning-objectives

Modules

01-04

- Scrum in a Nutshell
- The Scrum Team
- The Team's Product Owner
- People Outside The Team

05-08

- Leadership
- What is 'Product'?
- The Backlog
- Capabilities and Chores

09-12

- Stories and Epics
- Technical Debt (short)
- The Story's Definition of Done
- Velocity, Size, and Effort

13-17

- Backlog Refinement
- Planning Day
- Agreement-Based Planning
- The Daily Scrum
- Scaling An Organization

Your goals for this delivery

What must this course help your team do differently? Write three outcomes to bring into the conversation.

Goal 1

Goal 2

Goal 3

PROGRAM OPTION

Domain Guides

Domain Guides are your people, inside your company. They know this operating environment. They learn to make bounded changes and see whether the work responds. If the skill must live here after PO1, that is the program.
